

TRADITIONAL OUTDOOR LIVING

CLASSIC BRICK PATIO

A simple brick patio provides a timeless foundation for outdoor living. Its familiar look pairs naturally with traditional homes and requires no elaborate hardscape design to feel inviting.

LOW-MAINTENANCE PLANTS

A mix of dependable shrubs, hydrangeas, and easy-care perennials adds seasonal color and structure without creating a high-maintenance garden. Fresh mulch keeps beds looking clean and finished.

OPEN LAWN & SHADE

A healthy lawn provides valuable open space for kids, pets, and everyday use, while a strategically placed shade tree adds comfort, character, and long-term value to the backyard.
